## SOFTWARE ENGINEER

Full-stack capable software engineer specializing in front-end technologies such as JavaScript and React.js.

Passionate Front-End Developer dedicated to crafting seamless digital experiences that bridge the gap between creativity and functionality. With a meticulous eye for design and a deep understanding of modern web technologies, I transform visions into interactive and responsive websites that captivate users. By blending innovative UI/UX solutions with clean and efficient code, I strive to deliver visually stunning, user-centric websites that elevate brands and exceed expectations.

## SOFTWARE

HTML5 | CSS3 | JavaScript | TypeScript | Node.js | Express.js | React.js | jQuery | MongoDB | Python | Django | PHP | .NET Core | Vite | Jest | PostgreSQL | npm | yarn | SquareSpace | Git | GitHub | Visual Studio | Visual Studio Code | Azure DevOps

Core Competencies:

- **Web Development**
- **Agile Methodology**
- **Scrum**
- **Mobile Application Development**
- **Back End Development**
- **Front End Development**
- **Full Stack Development**
- **User Interface Design**
- **Web Application Design**
- **Remote Team Collaboration**
- **Cross-functional Collaboration**
- **Software Development Lifecycle**
- **Debugging**
- **REST API**

## EXPERIENCE HIGHLIGHTS

**RSM US LLP**, Chicago, IL (Remote)

Mar 2022 – May 2023

### Software Developer Associate

Completed assigned product backlog items and tasks while utilizing Azure DevOps to maintain progress communication and deadline expectations. Collaborated with international co-workers to develop key front-end aspects of FamilySight application using React.js, TypeScript, JavaScript, CSS, Redux, and .NET Core.

- Maintained language translation services for FamilySight, ensuring up-to-date site translation files across five separate languages; created CLI program to assist with translation audits and system flags, controlling access of localization changes alongside manual auditing.
- Created key landing page within application, housing access to third-party application integration.

**MANYBUILD, INC.**, Denver, CO (Remote)

Feb 2021 – Feb 2022

**Software Engineer (Contract)**

Collaborated within and across teams to develop front and back-end features for job-matching application using HTML, CSS, TypeScript, JavaScript, Firebase, and React.js.

- ☐ Formulated audit tables for maintaining accurate and easily discernible information through admin repository.
- ☐ Created aesthetically pleasing and company relevant 404 page for directing clients away from non-existent online pages.

**CLIENT WEBSITE CREATION**, Denver, CO (Remote)

Jul 20121 – Nov 2021

**Software Engineer (Contract)**

Created website (<https://www.marbellasgroomingsupply.com/>) for viral internet sensation and award-winning dog groomer, Marcia Strong (IG: marcia-grooms, TikTok: ilikedogsmorethanyou) using SquareSpace and custom CSS.

- ☐ Developed mockup home page pitch for potential client, transitioning to official client.
- ☐ Designed client-accessible website according to client specifications, including domain ownership and seamlessly integrated e-commerce features.

**ADDITIONAL EXPERIENCE**

- **Hackathon** – Tweet 2020, Recipient(s) of Crowd Favorite Award. Technologies used: React, CSS, and Netlify
- **Bark 'N Bubbles of Fairfax**, Fairfax, VA, Social Media Marketing Manager

**EDUCATION AND CERTIFICATIONS**

**Software Engineering Immersive Program Graduate**, General Assembly, Denver, CO (Remote), 2020  
**Bachelor of Science (B.S.)**, Biology, George Mason University, Fairfax, VA, 2017
