SOFTWARE ENGINEER | FRONT-END | FULL-STACK | JAVASCRIPT | REACT.JS

Software Engineer with 11+ years of customer service, administration, and sales experience. A hard-working self-starter with extreme attention to detail, I always strive to perform above and beyond what is asked of me. I am a customer-oriented professional who excels at analyzing and resolving issues while displaying compassion and empathy. I pride myself on being very teachable and adaptive to each new role I undertake in my personal and professional career. Open to remote work and positions in Denver, CO & Chicago, IL.

WORK EXPERIENCE

Software Engineering Apprentice | General Assembly
Denver, CO (remote)

As a Software Engineering Immersive Bootcamp student, I participated in a remote classroom environment over the course of 12 weeks where I received training in front-end & back-end software development.
